Nationally consistent collection of data on school students with disability – 2014

Our school is participating in the collection of nationally consistent data on school students with disability.

We will be collecting information already available in the school about the support that is being provided to students with disability. Better data will help the Government plan for students with disability.

The data collection will have no direct impact on your child and they will not be involved in any testing process.

The NSW Department of Education and Communities will provide data to the Australian Government from all NSW public schools in such a way that no individual student or school will be able to be identified. In this way, we will ensure the privacy and confidentiality of all students.

All information is protected by privacy laws which regulate the collection, storage and disclosure of personal information. Information about the Australian Government's Privacy Policy can be found here: <http://education.gov.au/condensed-privacy-policy>. Information about the NSW Government's privacy policies can be found here: <http://www.ipc.nsw.gov.au/>

If you do not want your child to be counted in the data collection you must complete the attached form and return it to the school before the end of Term 2, 2014. A decision to exclude your child will not affect the support they currently receive.

If you have any questions about your child being included in the data collection please contact the school.

If you **do not** want your child to be counted in the data collection, please complete the attached form and return it to the school before the end of Term 2, 2014.
